| Content of reflections appropriate |  |  |  | ✔ |  |
| Project images are high quality |  |  |  |  | ✔ |
| Spelling and grammar are correct |  |  |  |  | ✔ |

What was your overall first impression of the website?

I really liked the bright feeling of the site.  The colors seem to put you in a good mood.  The site seemed to be laid out well.  I did feel like there was quite a bit of scrolling, but I guess the buttons at the top solve that if you don't want to scroll as much.

Did you have any technical difficulties as you navigated through the pages and displayed the projects?
No.

What do you feel are the most effective design elements of this web portfolio?

I like the unified look as well as how everything is centered in the middle.  It gives it a clean, modern look.  I really like the cover page at the top with the animated arrow.  I like how it resizes to fit every size of screen.  I also like the little subtle pride flag at the bottom.  The logo also looks nice.  I like how the screenshots (in frames) scroll vertically.

What would you suggest be changed with the design or content of this web portfolio?

I noticed that under the contact me arrow, there is a very thin line/border than I'm guessing shouldn't be there.  You might consider making the project screenshots (in the website section) links so that I can click on that as well to see the site.
